EXPAND, REPAIR POWER PLANT FACILITIES

TO ENLARGE SVICA HYDROELECTRIC POWER PLANT -- Zagreb, Vjesnik, 29 May 51

Karlovac, 28 May -- Work has begun on enlarging the Svica Hydroelectric Power Plant from 100 to 500 horsepower. This plant has furnished light to Otocac and some nearby villages. After it is enlarged, it will furnish light to Otocac Srez and half of Brinje Srez.

About 500,000 dinars are to be spent on enlarging the plant.

REPAIR TURBINES -- Zagreb, Vjesnik, 3 Jun 51

The "Turbomontaze" Enterprise has repaired two large steam turbines for the Kreka Thermal Power Plant and the Paper Factory in Zagreb. Both turbines were completely renovated and all the turbine vanes replaced. Before the liberation, such repairs were made exclusively by technicians from abroad.

The turbine vanes were produced by the "Edvard Kardelj" Factory in Karlovac, and the material for the vanes by the "Impol" Factory in Slovenska Bistrica.

TO BUILD RAILROAD LINE FOR GACKO THERMAL POWER PLANT -- Sarajevo, Oslobodjenje, 1 Jun 51

The Gacko Thermal Power Plant, which uses about 3 tons of coal every 24 hours, is to begin construction on a 100-meter railroad track from the plant to the Gacko Mine. The transport of coal from the mine to the power plant will thus be simplified and 15,000 dinars saved per month.
